WE LOVE COCKTAILS

Shaken or stirred, short or tall, classic or new wave - cocktails are in our blood.

There are many theories about where the name cocktail came from, but our favourite is the 'cocktailed horse'. Back in around 1800, it was apparently customary to dock the tails of horses that were not thoroughbred - these were called cocktailed horses, later simply cocktails. By extension, the word cocktail was applied to a vulgar, ill-bred person raised above his station. As a diluted drink, i.e. not a 'pure-bred', the term cocktail soon started to appear on drinks menus.
